Registration/Cancellation/CE Credits

The number of registrations is limited for each course, and registration is accepted on a first-come first-serve basis. Full tuition payment must accompany all registration forms. Confirmed registrants who are unable to attend the course can obtain a refund by notifying Dr. Liu no later than three (3) days prior to the course date. Cancellations past that date will not be refunded. Dr. Liu reserves the right to cancel the course no later than seven (7) days prior to the event.

CE credits awarded in the United States for participation in the CE activity may not apply toward license renewal in all states, countries, or provinces. It is the responsibility of each participant to verify the requirements of the state, country, or province.

Dr. Steven Liu's Study Club presents

Lava™ Chairside Oral Scanner C.O.S. Precise Digital Impressions to Improve Productivity

Sponsored by **3M ESPE**

Another course in Dr. Steven Liu's Study Club series

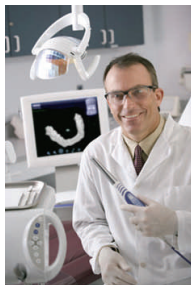

About the Speaker

Dr. Mark Senkowski

Mark Senkowski graduated from the U of DE with a BA in Economics and began his dental career as a sales representative with Shofu Dental Corp selling abrasive points and cements.

In 1995 he started working for ESPE expanding his knowledge about composites, impression material, and techniques. 3M and ESPE merged in 2001 and Mark was made a field sales trainer for new reps on materials and techniques of composites, glass ionomers, cements and impression materials after extensive training.

Later on, Mark took on a new role as a Lava C.O.S. specialist in 2008 where his responsibilities are to train and educate the industry on digital impressioning while continuing to grow the Lava C.O.S market.

PRODUCTIVITY FLEXIBILITY PATIENT COMFORT & REVOLUTIONARY TECHNOLOGY

- Seating times of single unit crowns decreased on average by 41% when compared to traditional impressions
- 0.5% remake rate due to marginal fit
- Eliminate several steps, including tray selection, dispersing and setting of materials, and disinfecting of and shipping impressions
- Prescribe PFM or CAD/CAM restorations, including Lava Restorations
- Work with your current lab
- Patients prefer a Lava C.O.S. digital impression versus a traditional impression
- Capture and simultaneously view continuous 3D video images on touch screen monitor with 3D-in-Motion technology
- Access preparation and margin using powerful tools unique to digital dentistry

Lava™ Chairside Oral Scanner C.O.S. Precise Digital Impressions to Improve Productivity

- **Doctors can strengthen their relationship with their existing lab by utilizing powerful tools unique to digital dentistry.** Increases productivity by reducing seating times and remakes.
- **The 3D-in-Motion Difference Traditional point-and-click digital technology has been around for more than 20 years.** However, the Lava C.O.S. is the only system on the market that has elevated the process from merely taking pictures to capturing video. With Lava C.O.S. 3D-in-Motion technology, doctors can capture and simultaneously view a digital impression on a touch screen monitor.
- **Comfortable, Interactive Experience.** Patients will benefit from a comfortable and interactive experience that ultimately results in a beautiful restoration. Doctors will appreciate an enhanced state-of-the-art image for their dental practice, a high level of patient satisfaction and improved productivity.

Continuing Education Credits provided by:

About Dr. Liu and his Study Club

Dr. Steven Liu earned his DMD from the University of Pennsylvania, School of Dental Medicine. He pursued post-graduate specialties in Periodontics, Periodontal Prosthesis and fixed Prosthodontics, as well as Implant Surgical and Prosthetic training. He is a member of the ADA, Pennsylvania Dental Association, American Academy of Periodontology and the Academy of Osseointegration.

Dr. Liu was Assistant Professor/Clinician Educator of Restorative Dentistry in the Department of Preventive and Restorative Sciences at The University of Pennsylvania and the Director of the Implant Dentistry course. Now he is the Course Director of Aesthetic Restoration and Implant Dentistry in the Academic Department of the University of Pennsylvania. **He's also the recipient of the 2001, 2002, and 2004 Joseph L.T. Appleton Award for excellence in clinical instruction. and an "American Top Dentist" for 2005, 2006, 2007 and 2009.**

Dr. Liu conducts his STUDY CLUB meetings every other month. Topics vary and the meetings are a great place to meet and talk with other local dentists.
